CONTENTS OF VOLUME TWENTY-EIGHT

NUMBER 1. *Research in Diseases of the Tropics*

Scientific Editor: C. E. GORDON SMITH

		PAGE
Introduction	*Lord Rosenheim*	1
Changing patterns of disease in the tropics	*C. E. Gordon Smith*	3
Arbovirus diseases	*D. I. H. Simpson*	10
Recent trends in leprosy research	*R. J. W. Rees & M. F. R. Waters*	16
Immunology of malarial infection and its possible consequences	*I. A. McGregor*	22
Advances in malariology relating to control and eradication	*Wallace Peters*	28
Trypanosomiasis	*W. H. R. Lumsden*	34
Leishmaniasis in the Old World	*R. S. Bray*	39
Leishmaniasis of the New World: taxonomic problems	*R. Lainson & J. J. Shaw*	44
Recent advances in the immunology of schistosomiasis	*S. R. Smithers*	49
Epidemiology and control of schistosomiasis	*P. Jordan*	55
Filariasis	*J. F. B. Edeson*	60
Onchocerciasis	*B. O. L. Duke*	66
Pathophysiological factors of importance in protein-calorie malnutrition	*R. G. Whitehead & G. A. O. Alleyne*	72
Heart disease in the tropics	*W. E. Miall & G. Bras*	79
Tropical sprue	*S. J. Baker*	87
Recent work on anaemias in the tropics	*A. W. Woodruff*	92

Notes on Contributors 96

Book Reviews 99

NUMBER 2. *Viral Hepatitis*

Scientific Editor: F. O. MacCALLUM

		PAGE
Introduction	*Lord Rosenheim*	103
Early studies of viral hepatitis	*F. O. MacCallum*	105
The course of long incubation (virus B) hepatitis	*Sheila Sherlock*	109
Problems of fulminant hepatic failure	*Roger Williams*	114
Chronic hepatitis	*Ralph Wright*	120
Pathology of viral hepatitis	*K. Weinbren & G. A. Stirling*	125
Antigen in infectious hepatitis	*A. A. Ferris*	131
Laboratory investigation into the aetiology of human viral hepatitis	*A. J. Zuckerman*	134
Laboratory tests for Australia (hepatitis-associated) antigen and antibody	*Patricia E. Taylor*	138
Immunological aspects of viral hepatitis	*E. J. Holborow*	142
Autoimmune aspects of liver disease	*Deborah Doniach*	145
Epidemiology of infectious hepatitis	*A. J. Rowland & J. F. Skone*	149
Epidemiology of serum hepatitis	*Yvonne E. Cossart*	156
Hepatitis in transfusion services	*W. d'A. Maycock*	163
Control of hepatitis in dialysis units	*B. P. Marmion & R. W. Tonkin*	169
Cytomegalovirus and EB virus infections of the liver	*H. Stern*	180

Notes on Contributors 186

Book Reviews 188

NUMBER 3. *Radiology in Renal Disease*

Scientific Editor: THOMAS SHERWOOD

		PAGE
Introduction	*R. E. Steiner*	189
Renal toxicity of radiological contrast media	*Ronald G. Grainger*	191
Diagnostic ultrasound in renal disease	*Ellis Barnett & Patricia Morley*	196
Isotopes and the kidney	*A. M. Joekes*	200
Topographical scintigraphy of the kidney	*E. Rhys Davies*	205
Needle nephrostomy	*H. M. Saxton, C. S. Ogg & J. S. Cameron*	210
Videocystographic studies with simultaneous pressure and flow recordings	*C. G. Whiteside*	214
Radiological patterns of bone disease associated with renal glomerular failure in adults	*F. H. Doyle*	220
Bone resorption in chronic renal failure: a comparison of radiological and histological assessments	*F. H. Doyle, Tha Aung, R. N. P. Carroll, E. D. Williams & R. Shackman*	225
The nephrographic pattern during excretion urography	*I. Kelsey Fry & W. R. Cattell*	227
Medullary necrosis in infancy	*Alan R. Chrispin*	233
Post-obstructive renal atrophy (nephropathy)	*C. J. Hodson*	237
The renal circulation in haemorrhagic hypotension: in-vivo renal micro-angiography in the dog	*J. P. Lavender & Thomas Sherwood*	241
Small-vessel changes in renal disease	*M. E. Sidaway*	247
The renal tract in spina bifida cystica	*J. Edmund Williams*	250
Radiology of the urinary tract in the tropics	*J. H. Middlemiss*	255

Notes on Contributors 258

Book Reviews 261

INDEX TO VOLUME TWENTY-EIGHT

Names printed in capitals are those of authors who have contributed papers. Titles of books are printed in italics.

A

Abate, insecticidal effects, 29
Adam, K. M. G., Paul, J. & Zaman, V.: *Medical and veterinary protozoology: an illustrated guide*, 102
Adrenal cortex, changes in protein-calorie malnutrition, 76
Albumin, serum, synthesis in protein-calorie malnutrition, 77
ALLEYNE, G. A. O., *see* WHITEHEAD, R. G., 72
Amino acids, serum, changes in protein-calorie malnutrition, 76
Anaemia in protozoal infections, 93
—— in tropics, 92
—— iron-deficiency, in tropics, 92
—— malarial, 26
—— megaloblastic, in tropics, 93
—— —— *Tropical sprue and megaloblastic anaemia*, 102
—— sickle-cell, in tropics, 94
Angiography, macro-angiography, renal, 247
—— micro-angiography, renal, 241
Anopheles, control and eradication, 28
Antibodies in malarial infection, 24
Antigen, Australia, *see* Australia antigen
—— faecal, and infectious hepatitis, 131
—— Milan, 112, 136
Antigens: *Immunological tolerance to tissue antigens*, 188
—— in malarial infection, 23
Arbovirus diseases, 10
—— —— control, 14
Arboviruses, California group, 12
—— group A, 11
—— group B, 11, 12
—— group C, 11
Arthropods: *Insecticide resistance in arthropods*, 2nd ed., 102
AUNG, T., *see* DOYLE, F. H., 225
Australia antibody, laboratory tests for, 138
—— antigen, 109, 110
—— —— and control of transfusion hepatitis, 163
—— —— familial incidence, 160
—— —— in chronic hepatitis, 120, 121
—— —— laboratory tests for, 138
—— —— microscopical liver changes in positive patients, 128
—— —— nature of, 134
—— —— particles, electron microscopy, 122
—— —— relation to epidemiology of serum hepatitis, 156
—— —— —— to liver cell carcinoma, 112
Autoimmunity in liver disease, 145
—— in viral hepatitis, 142, 145
—— liver-specific, 145

B

BAKER, S. J.: Tropical sprue, 87
BARNETT, E. & MORLEY, P.: Diagnostic ultrasound in renal disease, 196
BCG vaccination against leprosy, 21
Belcher, E. H. & Vetter, H. (editors): *Radioisotopes in medical diagnosis*, 261
Biliary cirrhosis, and chronic hepatitis, 123
Biographical notes on contributors, 96, 186, 258
Bladder obstruction, videocystographic studies, 216
—— pressure, videocystographic studies, 214
—— videocystographic studies with simultaneous pressure and flow recordings, 214
Blood transfusion and transmission of hepatitis, control measures, 165
—— —— prevention of spread of viral hepatitis, 177
Blue-tongue virus, 13
Body fluid changes in protein-calorie malnutrition, 74
Bone disease associated with renal glomerular failure, radiological patterns, 220
—— resorption in renal failure, radiological and histological assessments, 225
Brain in hepatic failure, 115
BRAS, G., *see* MIALL, W. E., 79
BRAY, R. S.: Leishmaniasis in the Old World, 39
Britton, K. E. & Brown, N. J. G.: *Clinical renography*, 261
Brown, A. W. A. & Pal, R.: *Insecticide resistance in arthropods*, 2nd ed., 102
Brown, N. J. G., *see* Britton, K. E., 261
Brugia, 60
Bunyamwera arboviruses, 11

C

Calculus, urinary, diagnosis by ultrasound, 198
California group arboviruses, 12

INDEX TO VOLUME TWENTY-EIGHT

Calorie deficiency, adaptation to, 73
CAMERON, J. S., *see* SAXTON, H. M., 210
Carbaryl, insecticidal effects, 30
Cardiomegaly, idiopathic, in tropics, 83
Cardiomyopathies in tropics, 82
CARROLL, R. N. P., *see* DOYLE, F. H., 225
CATTELL, W. R., *see* FRY, I. K., 227
Chesney, D. N. & Chesney, M. O.: *Radiographic photography*, 3rd ed., 262
Chesney, M. O., *see* Chesney, D. N., 262
Chikungunya virus disease, 11
Cholecystography, renal toxicity of contrast media, 194
CHRISPIN, A. R.: Medullary necrosis in infancy, 233
Cirrhosis, biliary, and chronic hepatitis, 123
—— cryptogenic, and chronic hepatitis, 123
Coma, hepatic, 115
Contrast media, radiological, renal toxicity of, 191
Contributors, biographical notes on, 96, 186, 258
Corticosteroid therapy in hepatic failure, 117
COSSART, Y. E.: Epidemiology of serum hepatitis, 156
Crimean haemorrhagic fever, 13
Cytomegalovirus infections of liver, 180
—— —— —— —— clinical features, 182
—— —— —— —— diagnosis, 183
—— —— —— —— epidemiology, 180
—— —— —— —— pathogenesis, 180
—— mononucleosis, 182
—— properties, 180

D

Dapsone therapy in leprosy, 17
DAVIES, E. R.: Topographical scintigraphy of the kidney, 205
Dengue virus diseases, 11, 13
Dialysis units, hepatitis prevention and control in, 169
Dichlorvos, insecticidal effects, 30
DONIACH, D.: Autoimmune aspects of liver disease, 145
DOYLE, F. H.: Radiological patterns of bone disease associated with renal glomerular failure in adults, 220
—— THA AUNG, CARROLL, R. N .P., WILLIAMS, E. D. & SHACKMAN, R.: Bone resportion in chronic renal failure: a comparison of radiological and histological assessments, 225
DUKE, B. O. L.: Onchocerciasis, 66

E

EB virus infection of liver, 184
EDESON, J. F. B.: Filariasis, 60
Education, medical, in tropics, 7
Electrolyte metabolism, changes in protein-calorie malnutrition, 75
Encephalitis, eastern, 11
—— epizootic, 4
—— St Louis, 12
—— Venezuelan, 11
Endomyocardial fibrosis in tropics, 82
Exchange transfusion in hepatic failure, 117
Eye lesions in onchocerciasis, 67

F

Fenitrothion, insecticidal effects, 30
FERRIS, A. A.: Antigen in infectious hepatitis, 131
Filariasis, chemotherapy, 63
—— chyluria in, 257
—— clinical aspects, 62
—— control, 63
—— epidemiology, 61
—— host–parasite relationships, 62
—— parasites, 60
—— pathology, 62
—— vectors, 61
—— vertebrate hosts, 61
Folic acid, malabsorption, 89
Ford, J.: *The role of the trypanosomiases in African ecology: a study of the tsetse fly problem*, 100
FRY, I. K. & CATTELL, W. R.: The nephrographic pattern during excretion urography, 227

G

Garlick, J. P. & Keay, R. W. J. (editors): *Human ecology in the tropics*, 101
Gilles, H. M., *see* Maegraith, B. G., 99
Glomerular failure, bone disease in, radiological patterns, 220
—— filtration rate, measurement with isotopes, 200
GRAINGER, R. G.: Renal toxicity of radiological contrast media, 191

H

Haemodialysis units, prevention and control of hepatitis in, 169
Haemoglobin disease, urographic effects, 255
Haemoglobinopathies in tropics, 94
Haemorrhagic fever of virus origin, 12
Heart, cardiomegaly, idiopathic, in tropics, 83
—— disease, in the tropics, 79
—— —— ischaemic, in tropics, 79
Heparin in hepatic failure, 116
Hepatic failure, *see* Liver failure
Hepatitis, antigens, *see* Australia antigen
—— cholestatic, 125
—— chronic, 120
—— —— active, 121
—— —— —— relation to cirrhosis, 123
—— —— Australia antigen in, 120, 121
—— —— persistent, 120
—— in primates, 135
—— infectious, antigen in, 131
—— —— distribution, age and sex, 151
—— —— —— geographical, 151
—— —— epidemiology, 149
—— —— mode of spread, 152, 153
—— —— periodicity, 150
—— —— prophylaxis, 154
—— —— transmission, experimental, 107
—— long incubation type, course of, 109
—— prevention in dialysis units, 169
—— serum, carriers, 157
—— —— course of, 109
—— —— epidemiology, 156
—— —— immunological aspects, 157, 160
—— —— in pregnancy, 159
—— —— natural circulation, 159
—— —— prevention and control, 161
—— —— transmission, experimental, 107
—— short incubation type, 109
—— viral, 103–185
—— —— acute, 158
—— —— aetiology, laboratory investigation, 134
—— —— antigens, 109
—— —— autoimmunity, 142, 145
—— —— control in dialysis units, 169
—— —— dialysis-associated, prevention and control, 175
—— —— early studies, 105
—— —— electron microscopy, 126
—— —— hepatic failure in, 114
—— —— immunological aspects, 142
—— —— pathology, 125
—— —— post-inoculation, 158
—— —— sporadic, 158
—— —— terminology, 105
—— —— transmission in transfusion services, 163
—— virus, modes of spread in dialysis and transplantation units, 171
—— —— tissue-culture studies, 135
—— virus A, antigen in, 131
—— —— differentiation from virus B hepatitis, 112
—— —— epidemiology, 149
Hepatitis—*cont.*
—— virus B, course of, 109
—— —— differentiation from virus A hepatitis, 112
—— —— epidemiology, 156
—— —— modes of infection, 109
—— —— prevention, 112
—— —— treatment, 113
